

CHEST PAIN

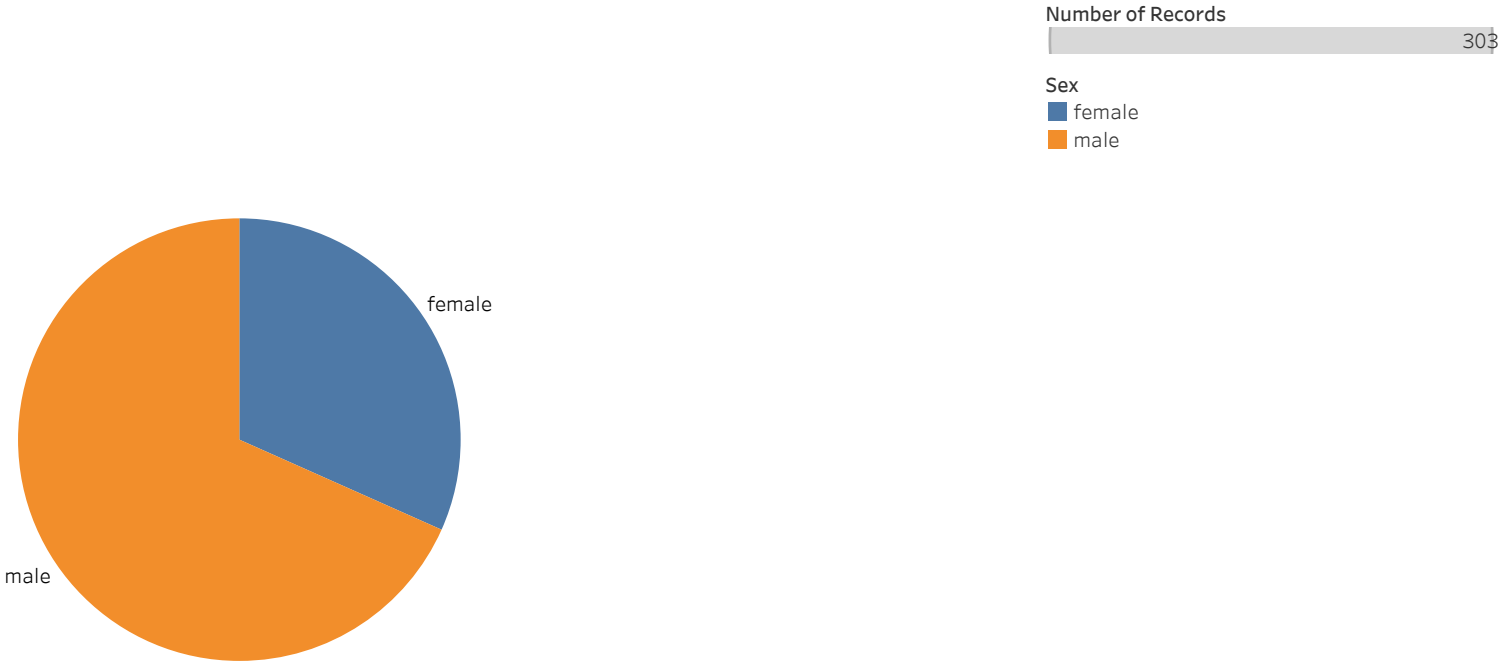

Count of Target and Chest Pain Type. Color shows details about Chest Pain Type. Size shows count of Target. The marks are labeled by count of Target and Chest Pain Type. The data is filtered on Sex, which keeps female and male.

THALESSIMIA

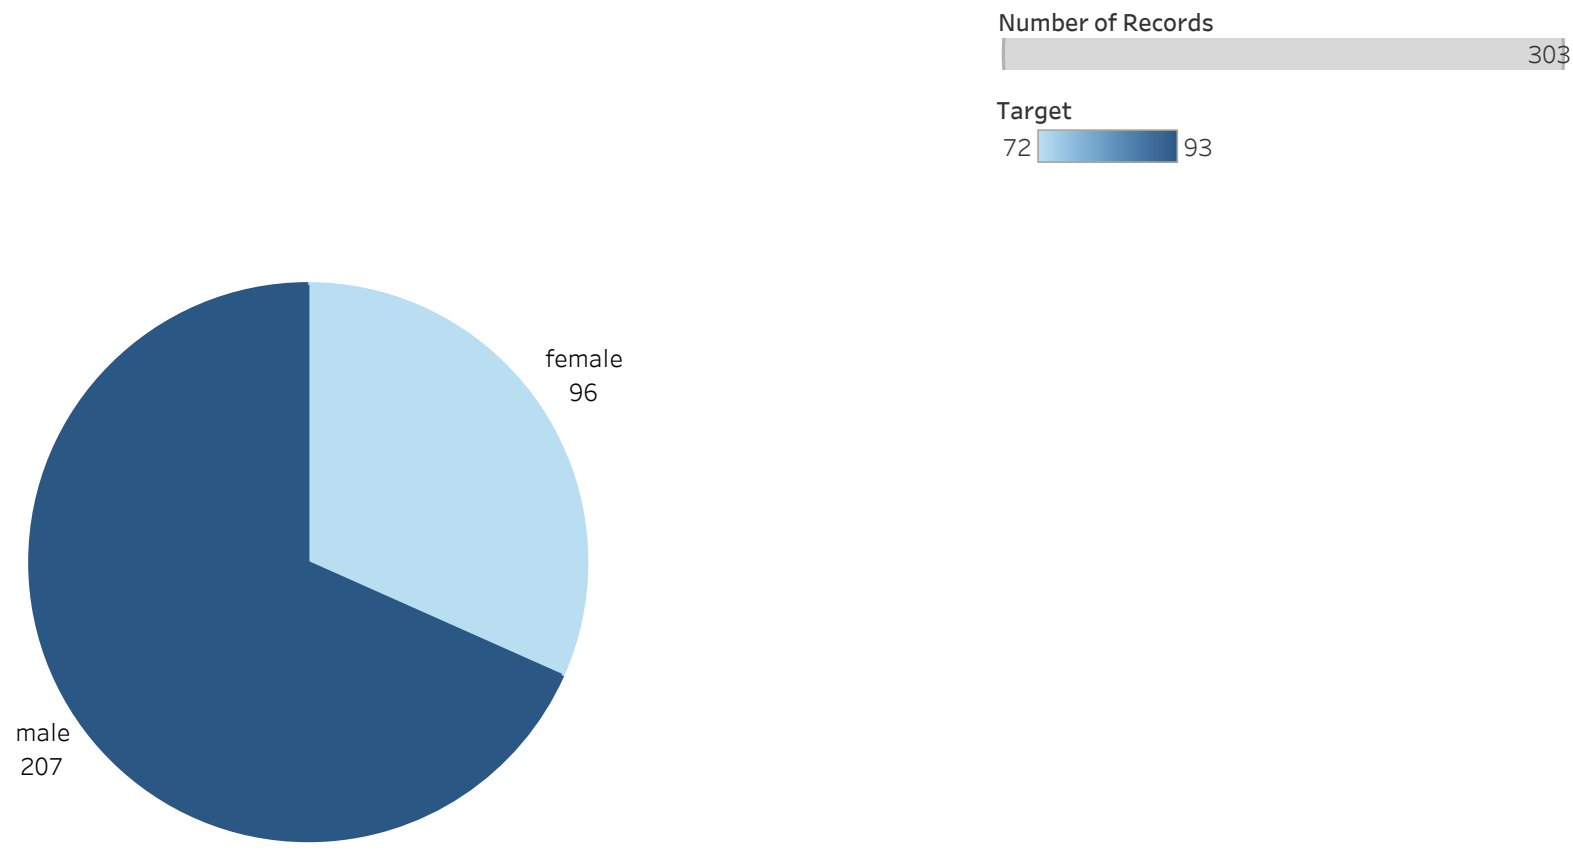

% of Total Count of Target and Thalessimia. Color shows details about Thalessimia. Size shows count of Target. The marks are labeled by % of Total Count of Target and Thalessimia. The data is filtered on Sex, which keeps female and male.

SEX

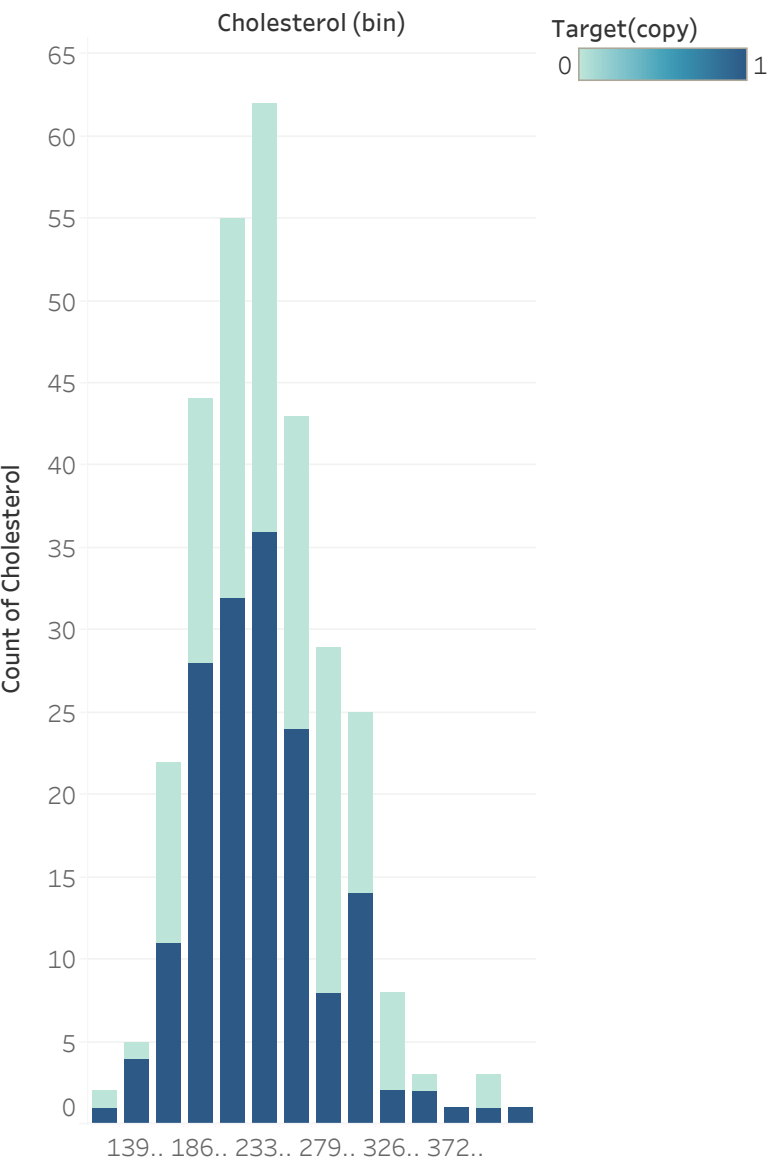

Sex. Color shows details about Sex. Size shows sum of Number of Records. The marks are labeled by Sex.

SEX-2

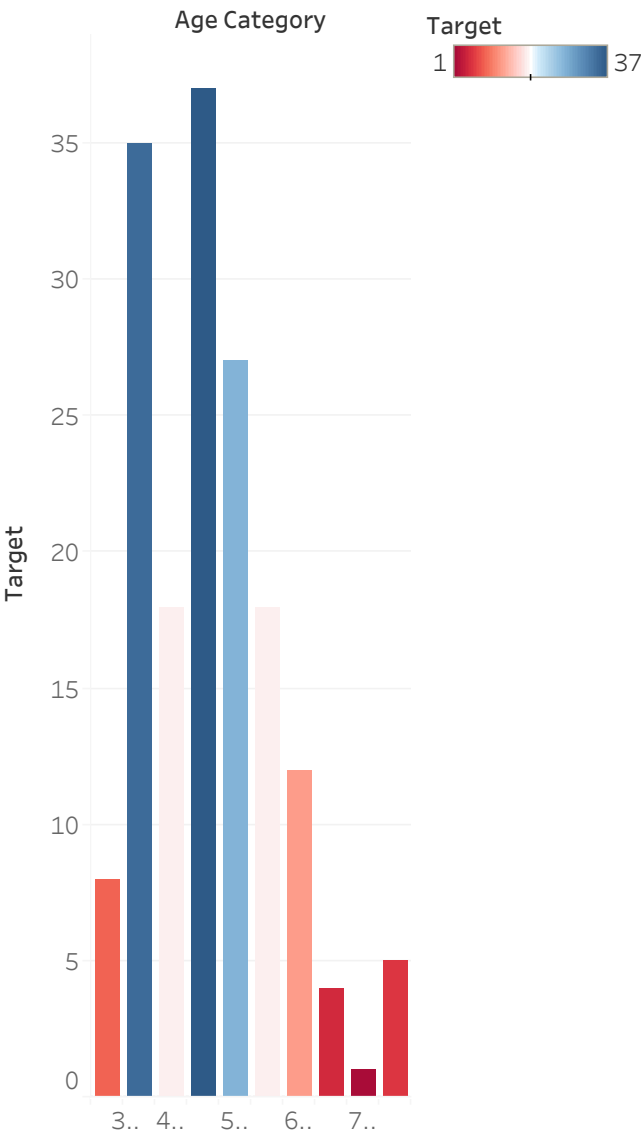

Sex and count of Sex. Color shows sum of Target. Size shows sum of Number of Records. The marks are labeled by Sex and count of Sex.

# Cholestrol levels of Patients

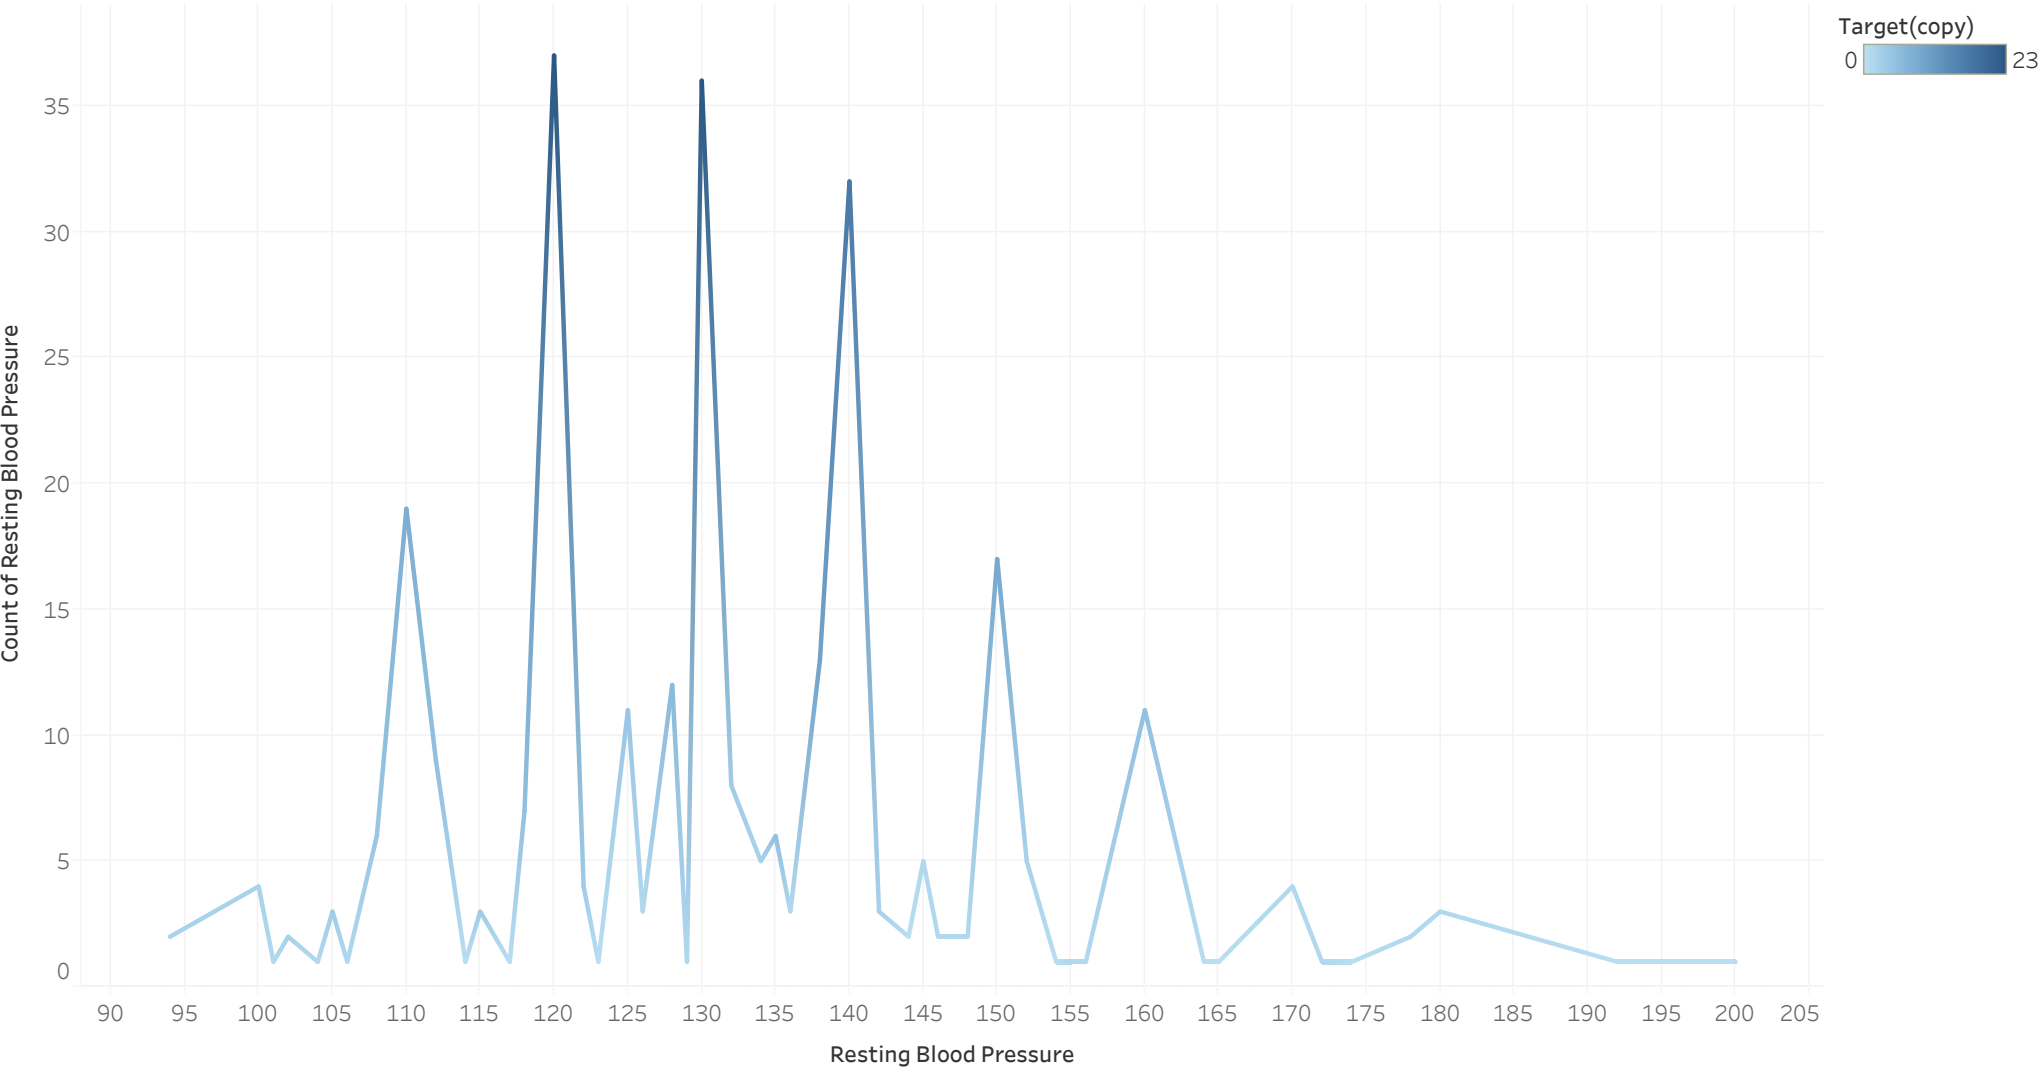

Count of Cholesterol for each Cholesterol (bin). Color shows details about Target(copy). The view is filtered on Target(copy), which ranges from 0 to 1.

# Age

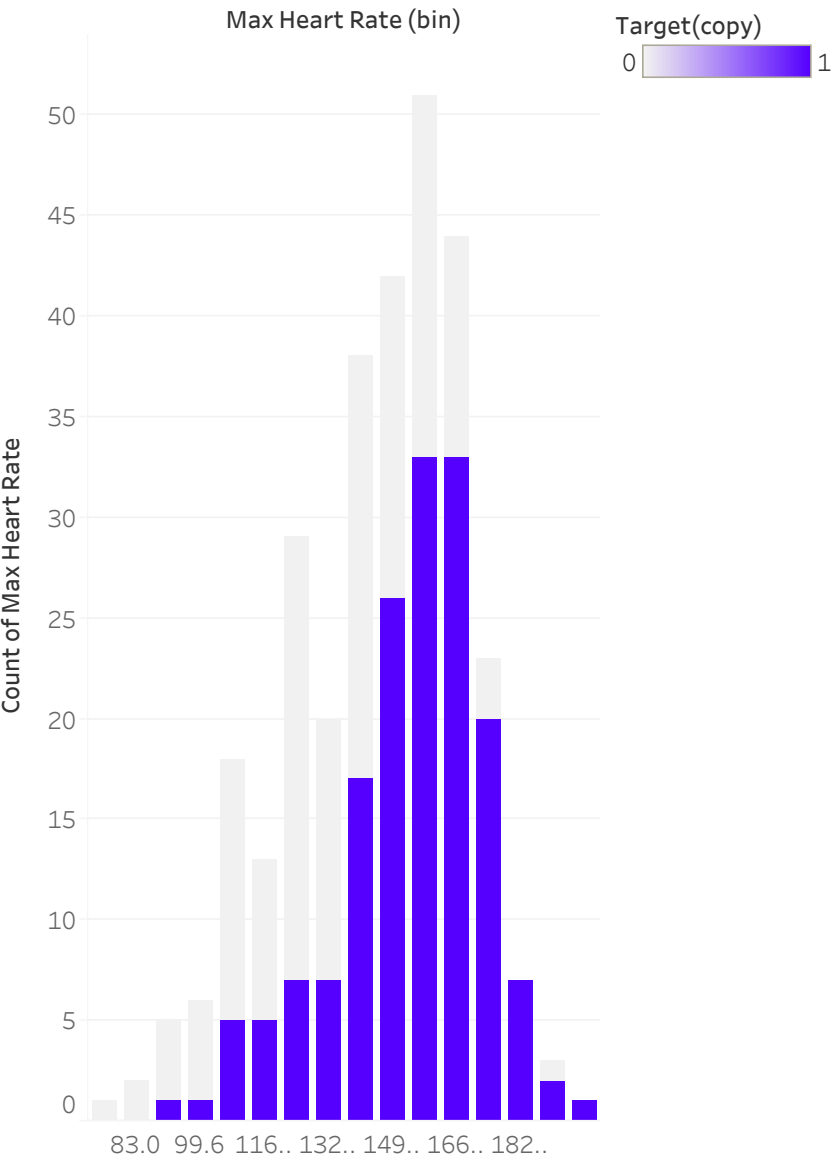

Sum of Target for each Age Category. Color shows sum of Target.

BP

The trend of count of Resting Blood Pressure for Resting Blood Pressure. Color shows sum of Target(copy). The data is filtered on Target(copy), which ranges from 0 to 1.

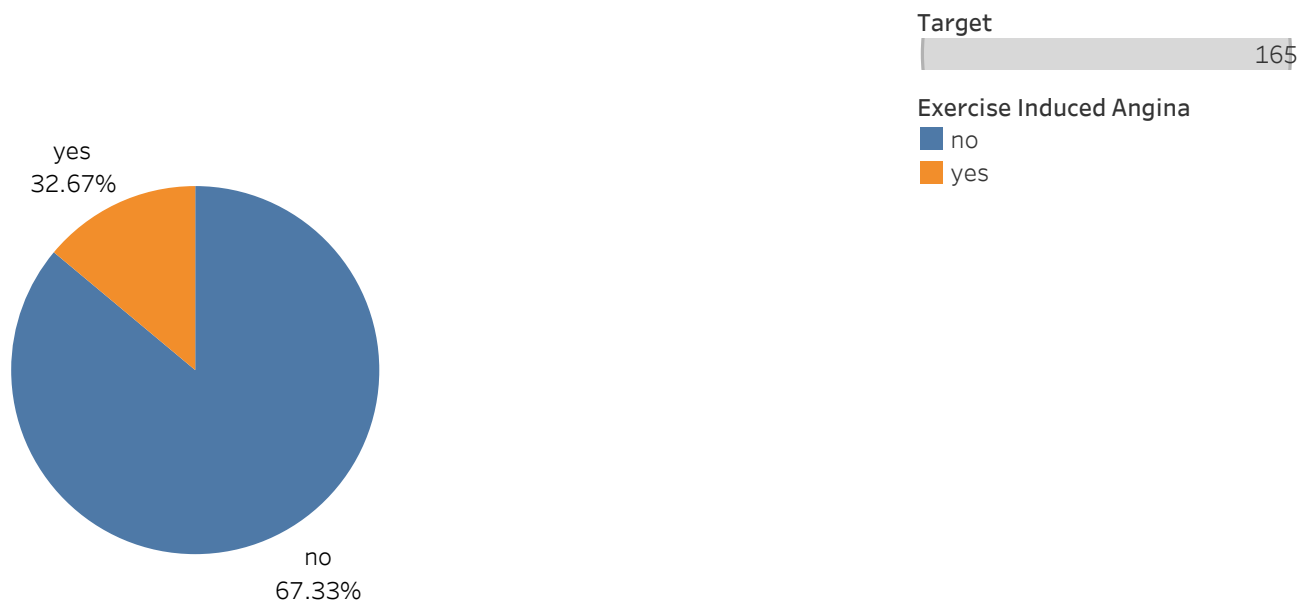

# Heart Rate of Patients

Count of Max Heart Rate for each Max Heart Rate (bin). Color shows details about Target(copy). The view is filtered on Target(copy), which ranges from 0 to 1.

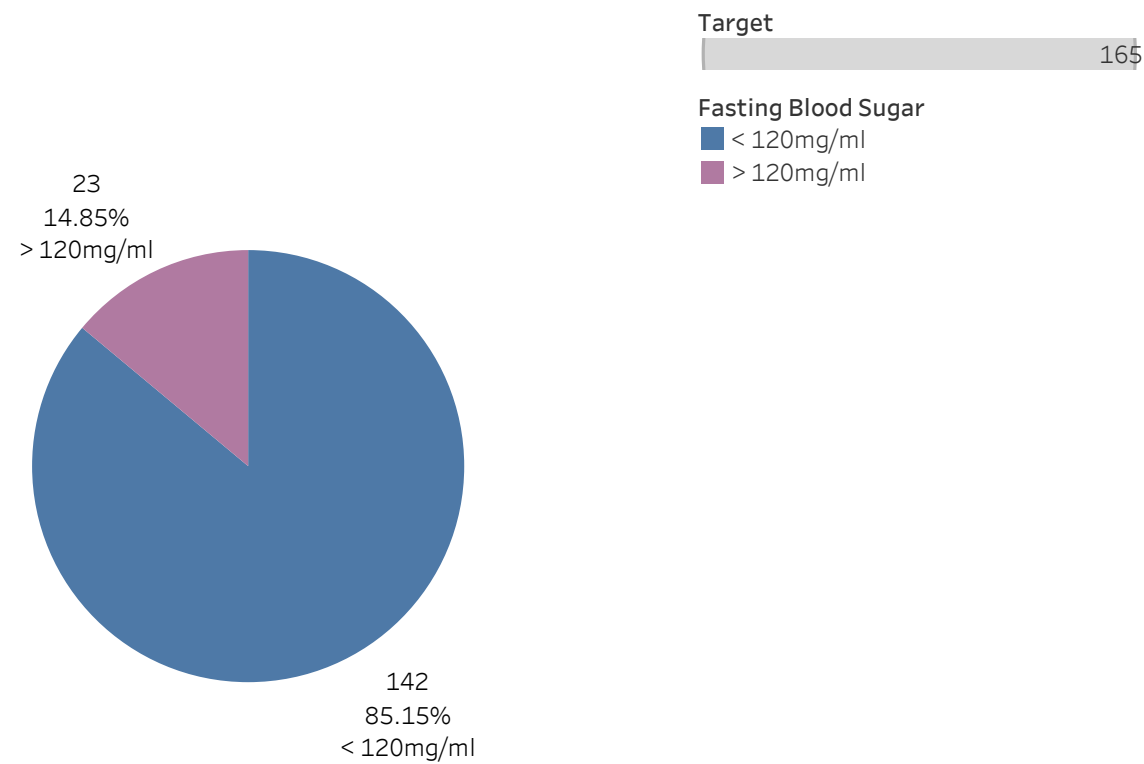

Exercise

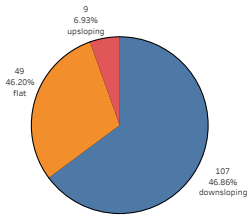

Exercise Induced Angina and % of Total Count of Exercise Induced Angina. Color shows details about Exercise Induced Angina. Size shows sum of Target. The marks are labeled by Exercise Induced Angina and % of Total Count of Exercise Induced Angina. The data is filtered on Age Category, which keeps 10 of 10 members.

FBS

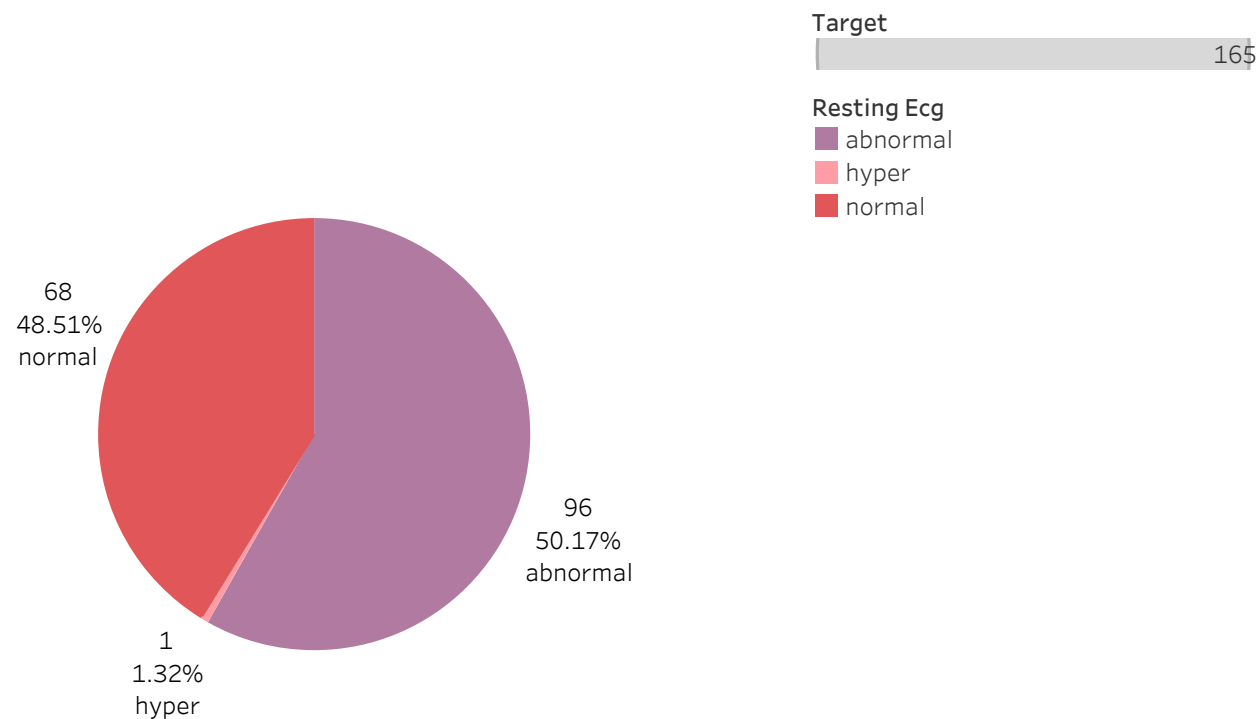

Sum of Target, % of Total Count of Fasting Blood Sugar and Fasting Blood Sugar. Color shows details about Fasting Blood Sugar. Size shows sum of Target. The marks are labeled by sum of Target, % of Total Count of Fasting Blood Sugar and Fasting Blood Sugar.

St Slope

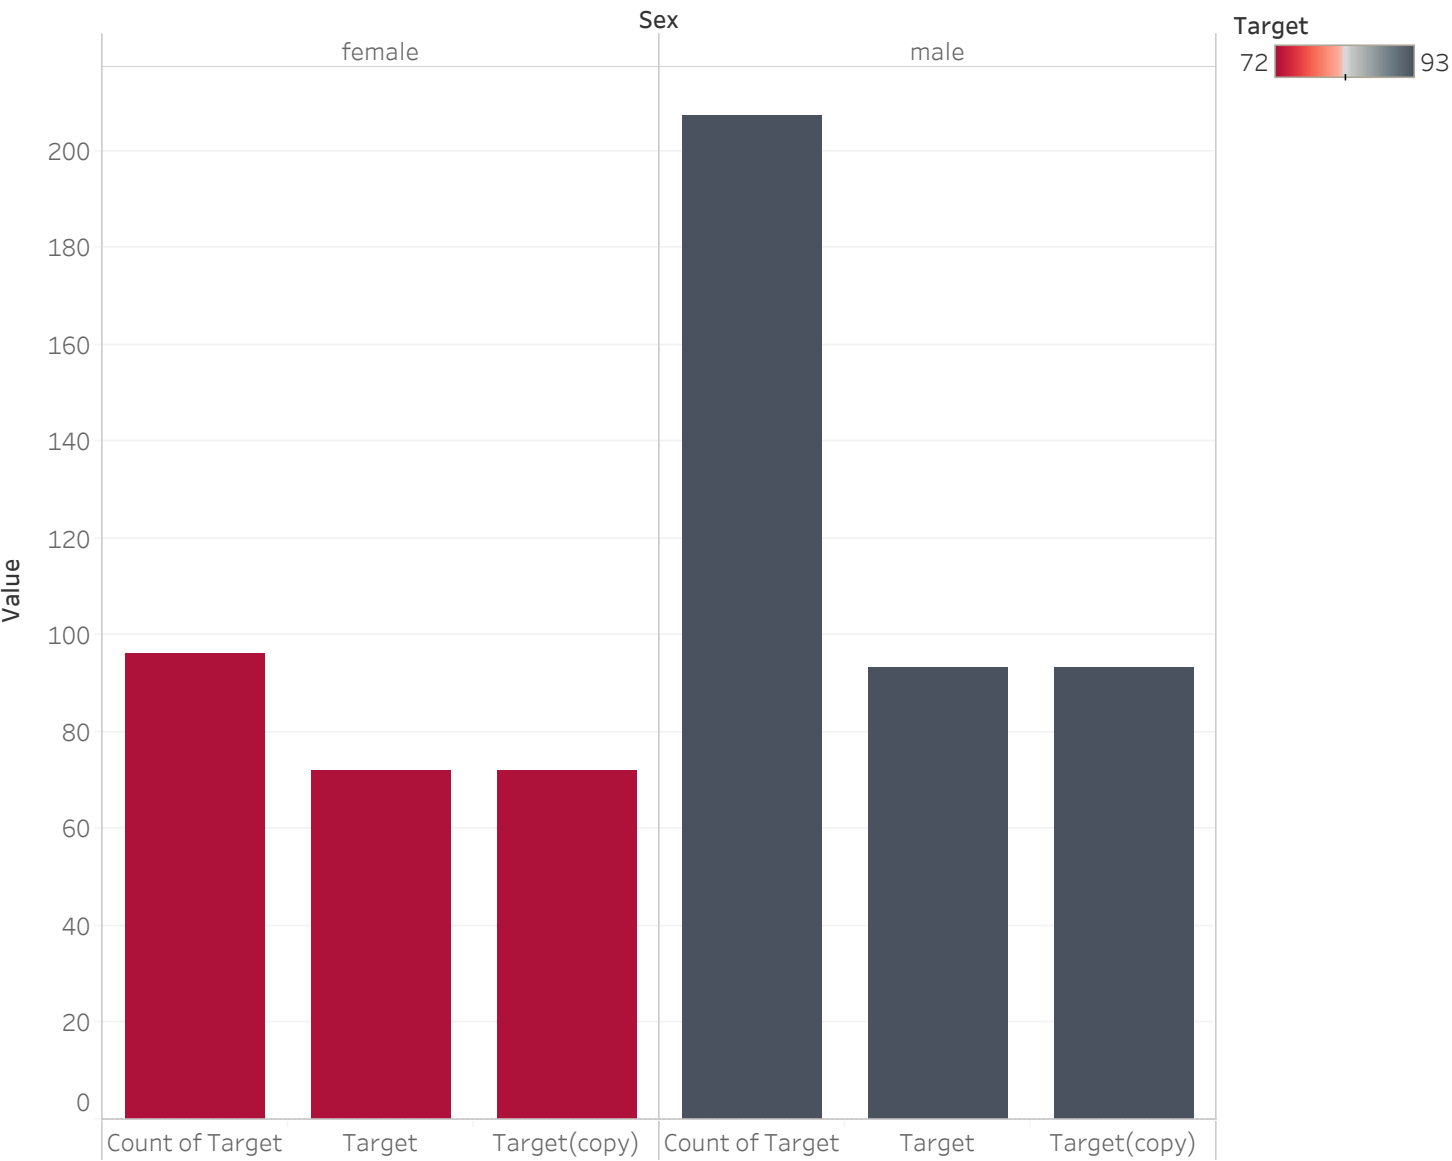

Sum of Target, % of Total Count of St Slope and St Slope. Color shows details about St Slope.  
Size shows sum of Target. The marks are labeled by sum of Target, % of Total Count of St Slope and St Slope. The data is filtered on Age Category, which keeps 10 of 10 members.

# Resting Ecg

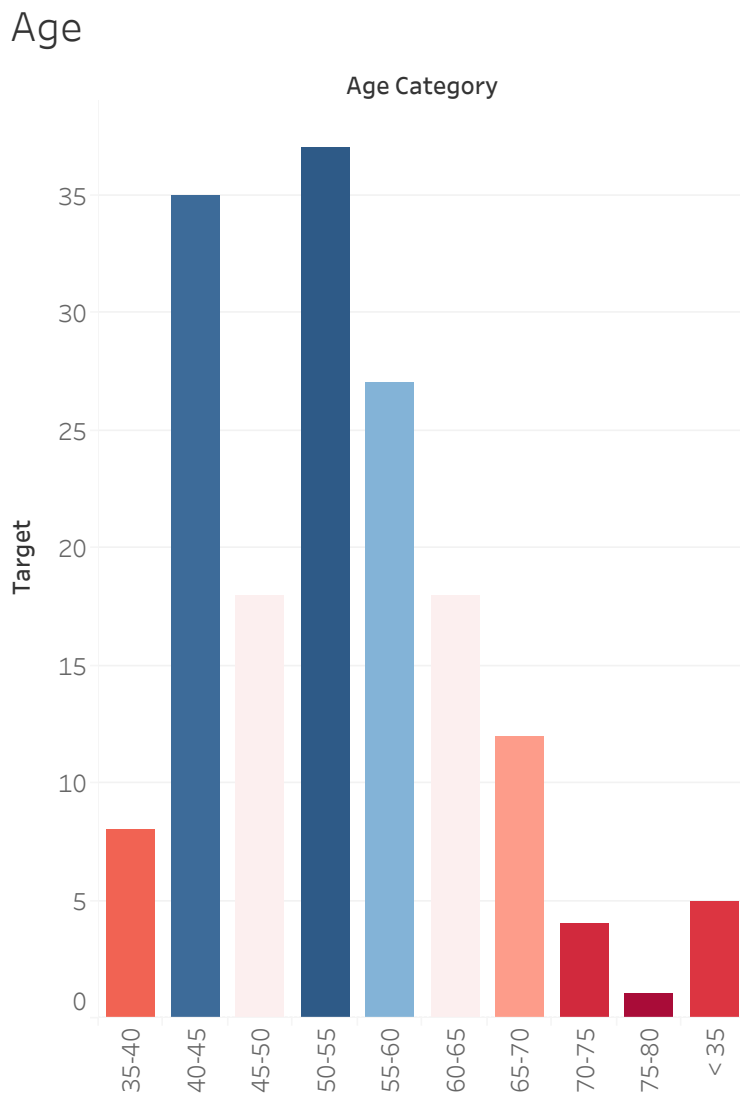

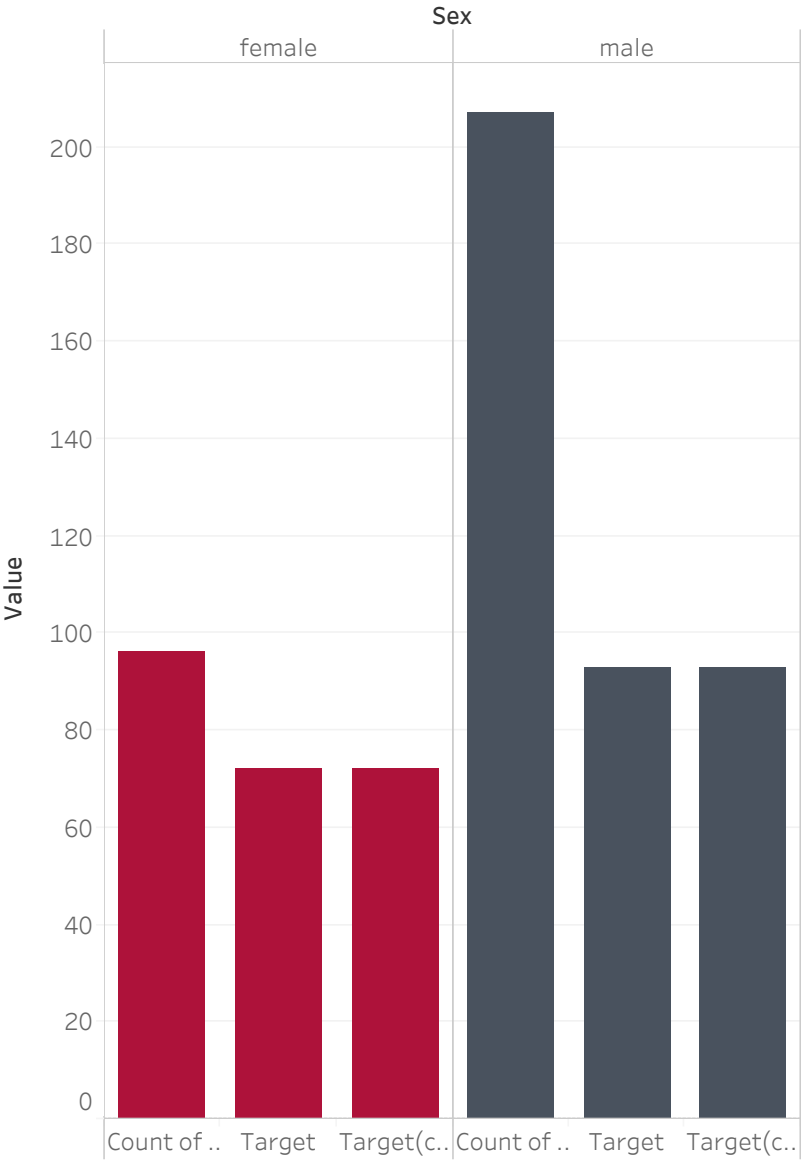

Sum of Target, % of Total Count of Resting Ecg and Resting Ecg. Color shows details about Resting Ecg. Size shows sum of Target. The marks are labeled by sum of Target, % of Total Count of Resting Ecg and Resting Ecg. The data is filtered on Age Category, which keeps 10 of 10 members.

Disease vs Sex

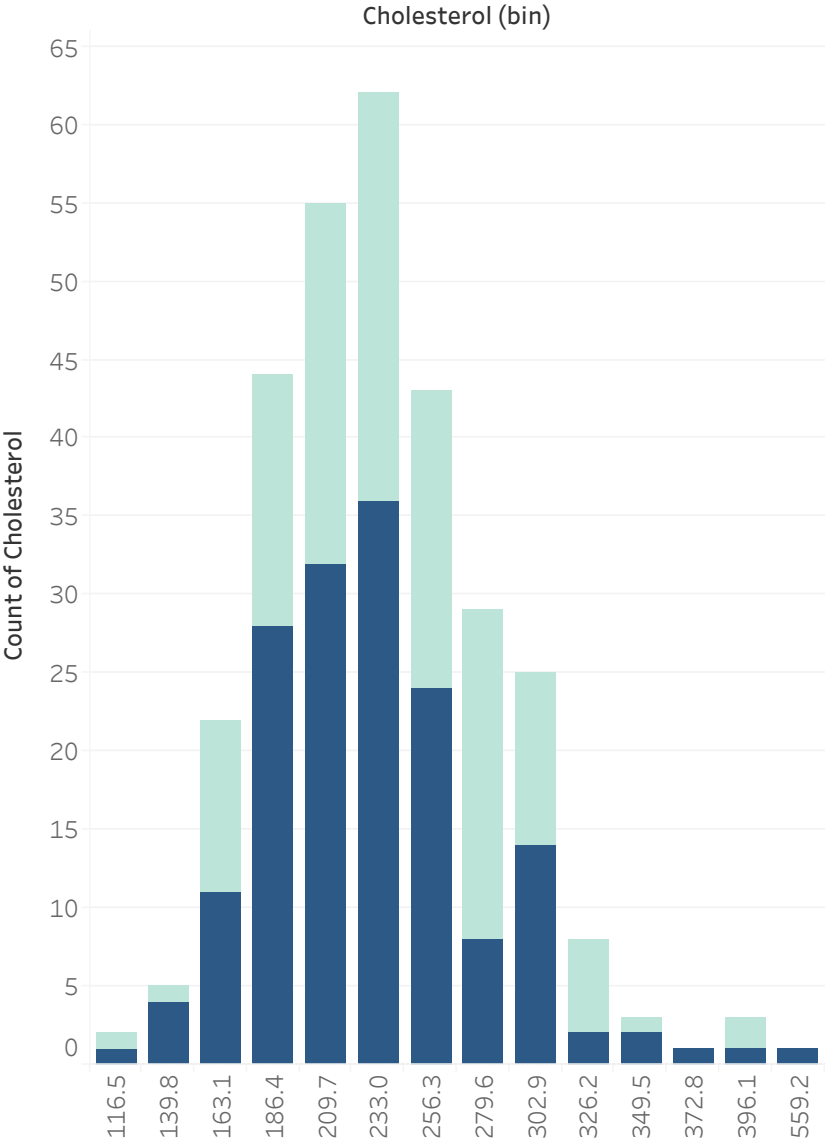

Count of Target, Target and Target(copy) for each Sex. Color shows Target.

# Disease vs Sex

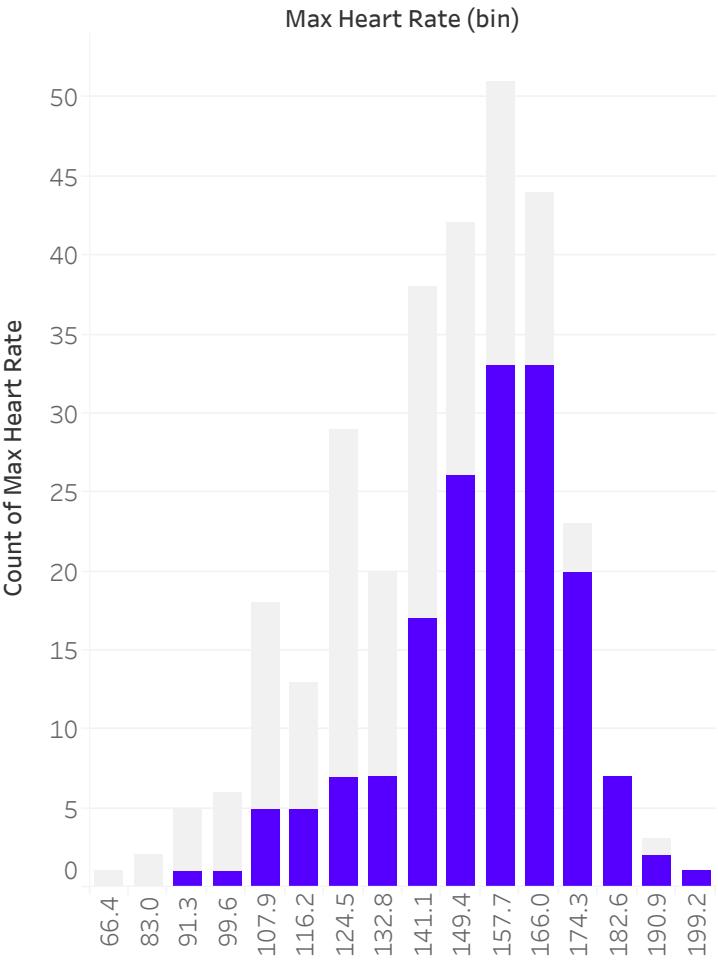

# Cholestrol levels of Patients

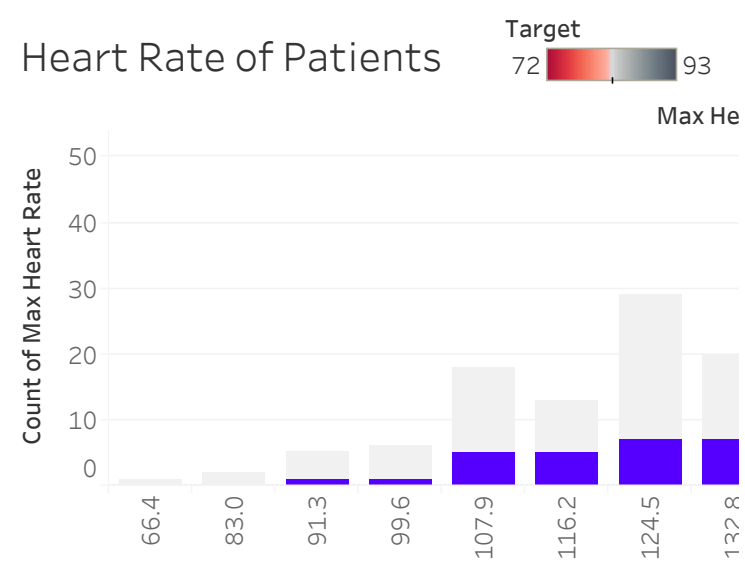

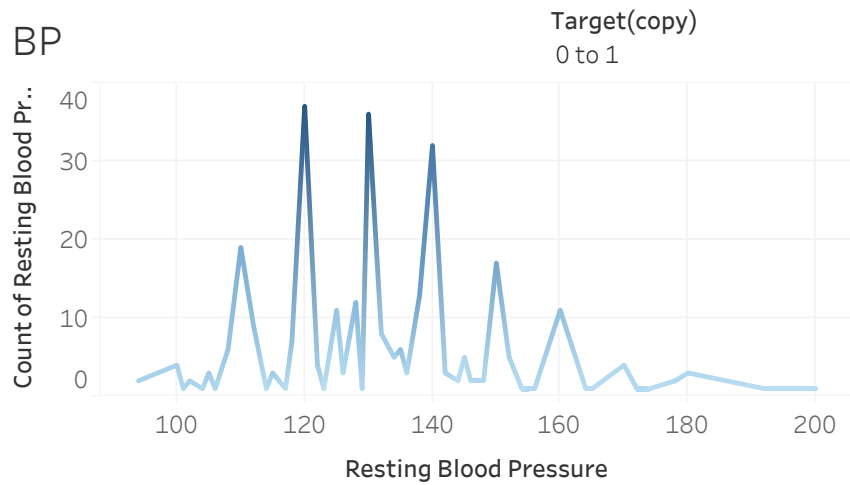

Target(copy)  
0 to 1

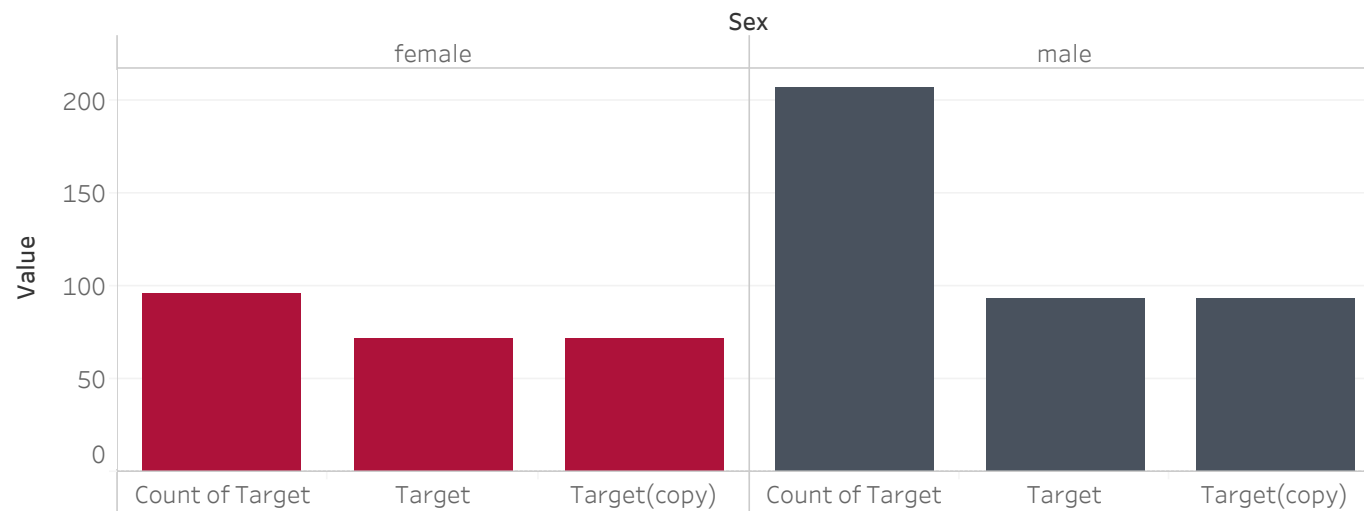

# Heart Rate of Patients

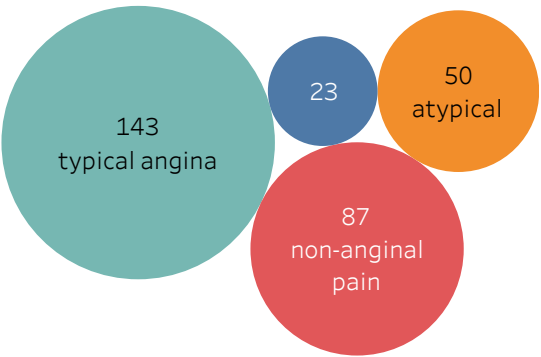

## Disease vs Sex

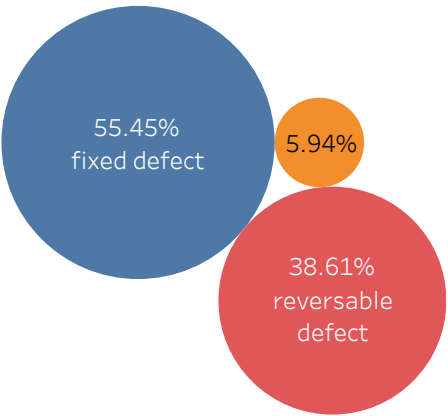

# Examining Disease Vs Other Factor.

## CHEST PAIN

- Chest Pain Type
- asymptomatic
  - atypical angina
  - non-anginal pain
  - typical angina

## THALESSIMIA

- Thalesimia
- fixed defect
  - normal
  - reversible defect

Disease Vs Age Category
